Driving Safety Tips For Winter

Now is the time to prepare vehicles for winter driving. The 6th Area Support Group Safety Office offers the following tips for driving safely this winter: Put snow tires or all-season tires on all four wheels, ensure all lights work and keep them clean, replace worn-out wiper blades and keep the windshield washer reservoir full of freeze-resistant solution, remove snow and ice from all windows, lights and the roof before driving. Remember to get an engine tune-up and use winter-grade or all-season oil, check the battery and ensure connections are good and terminal points are clean, and be sure all engine fluids are at proper levels.

Driving conditions will deteriorate during the winter months. A collection of wet leaves on tree-lined roads can have the same effect as ice so use caution when braking, accelerating and driving on curves. Fog is a major hazard and contributes to many accidents. Once fog appears, slow down and increase the distance from the vehicle in front of you. Use low-beam headlights and turn on wipers and the defroster to remove moisture from the windshield. Use the right side of the road edge or painted road markings as a reference and never rely on the rear lights of the vehicle you're following. Turn off the radio and open the driver's window a little to hear other vehicles. If visibility becomes severely limited, pull completely off the road, turn on emergency flashers and wait until the fog has cleared. For more info call 421-2752/civ. 0711-729-2752.

Report Damaged Shipments Promptly

The Stuttgart Law Center reminds new community members to document damage to household goods and baggage shipments completely and promptly. If damage is detected while the movers are unpacking, annotate the details on the front of the DD Form 1840, Joint Statement of Loss or Damage at Delivery (pink copy). When damage is discovered after the movers have left, annotate it on the back of the DD Form 1840R, Notice of Loss or Damage (pink copy). Turn the pink forms into the claims office within 70 days of delivery. For more info call 421-4597/civ. 0711-729-4597.

Communications Security Reminders

U.S. Army, Europe, will not process, store or send classified information on non-secure telecommunications systems. Department of Defense telecommunications systems include computer networks, fax machines, modems, telephones and radios. Use of official DoD telecommunications systems constitutes user consent to information systems security monitoring.

Official DoD telephone or communications directories published in USAREUR must display the security notice on the front cover or prominently in the general information section; DD Form 2056 must be on telephones and fax machines within DoD, including secure telephones; a computer log-on security notice must be on all computer systems; and new personnel must receive a briefing on telecommunications security. For more info call the 6th Area Support Group Security Office at 421-2133/civ. 0711-729-2133.

SERVICES

Using Customs Forms With MPS Mail

Are you using your Military Postal System privileges and mailing letters and packages? Post office personnel remind patrons to use their APO return address and to fill out a customs form. Use PS Form 2976, the small green form, for small boxes and packages containing four or less items. Use PS Form 2976-A, the large white form, for larger boxes and packages containing more than four items.

Regardless of which customs form is used, specific package contents must be listed. General descriptions such as toys or clothes are prohibited and can cause delays in mail delivery. For more info call 430-7226/civ. 0711-680-7226.
